Overview:

In order for the VPN proxy system to work, all system browsers need to be set to "use system proxy settings" by default. RC VPN leverages the MSIE_proxy setting assigned by dhcp. Below are the step in the various browsers by operating system.

Windows users:

- 1. Windows IE:
 - 1.1. Click the Gear box at the top right corner in Internet Explorer.
 - 1.2. Click the Tools button, and then click Internet Options.
